Reflections:

This world GDP per capita 2020 world map, shows that in the three EastAfrican countries, Kenya had the highest GP per capita , followed by Tanzania and lastly Uganda

This map of world life expectancy shows tha in the three East African countries, Tanzania (67.2 years) had the highest life expectancy, followed by Kenya (66.6 years) and lastly Uganda (64.6 years)

Working with AI, what was surprising is that AI can easily create figures and other visualization's in a relatively short time.
